EVENING STAR LOCAL INTELLIGENCE.

EXHALATIONS FROM SEWERS .- We perceive that the deleterious effect on the health of cities growing out of the exhalations from the sewers, as constructed at present, is causing scientific men in London and New York to puzzle their brains to discover some remedy for the evil. It is proposed in London to have stable was not much. Our police and the air-escape valves in the sewers communicating with air-tight pipes opening up under the furnaces of the various manufactories of the city, in which huge fires are built and from which the smoke escapes only through very long chimturn, by subjecting the impure air to intense over upon the city, purified.

The plan of "water traps," at every open ing in a sewer into which water or filth enters it, arranged by Dr. Thomas Miller, the President of the Washington City Board of Health, appears to us to be much cheaper, and positively certain to prevent noxious exhalations A fine bill is offered, and a full house expected. from sewers except where the water and filth thereof is finally ejected from the work. Thus, at the most trifing cost imaginable, may the feart of any city be relieved from the noxious trap has been used in Washington it has entirely removed the nuisance of the smell of a filthy sewer by which the neighborhood was areviously afflicted.

HARRY LEHR .- The very name suffices to xcite ones laughing propensities. This genleman takes his first benefit in this city in eight years, at the National Theatre, to-morrow night, and as he is a justly established favorite, the house will no doubt be fully attended. We have witnessed the efforts of many of our so-called great comedians, and can safely assert that in none was there such a total absence of coarseness and vulgar buffoonery as in Mr. Lehr's rendition of the gen. uine southern negro. There is a fidelity to nature, an unctiousness of expression, which teristics of the southern darkey, renders the picture at once recognizable; and "Brudder Bones's" ready wit and keenness of repartee title him to the consideration of the public, who have so often been delighted by his bril liant witticisms. The bill is an excellent one comprising among other attractions the ever popular Uncle Tom's Cabin.

THE NATIONAL HOTEL in this city, was duly re-opened according to advertisement on Monday morning last. Every thing around the house looke as bright as a new guinea. Already its halls begin to wear their former winter appearance This is, the people assemble there in from all quarters of the city, as merchants in an exchange, to discuss the news of the day. It has always been a favorite house with the public, and having been refitted from top to bottom to make it equal to the imes in all its appointment, it must of couse to its fair share of business throughout the

This house is under the control of E. D. Willard, Esq , a well know and popular caterer for the public. It may be well to remark that Mr. Willard, has no connection, whatever, with the popular Hotel kept by his brother, at the corner of 14th street. We deem it proper to name this fact as travelers, from a similarity of name, may mistake the houses.

FUNERAL OF A ROMAN CATHOLIC PRIEST The Globe of yesterday says: The remains of the Rev. Mr. Lilly, late Vice President of Loyala College, Baltimore, were brought to ihis city by the eleven o'clock cars this morning. They were accompanied by the Rev. Messrs. Early, McManus, Mccolgan, Dolan, and others, from Baltimore, including a com mittee of the Young Catho ics' Friend Society. The cortege was met at the depot by several friends and clergymen of this city and Georgetewn, and by the Rev. Mr. Blox, of Alexandria, Virginia. The corpse was removed in funeral procession to Georgetown, where, after suitable services, it was deposited in the burial ground of the Georgetown Coilege. The deceased was much esteemed in this city, having been for some time a professor in the Washington Catholic Seminary on F street.

SOMETHING NEEDED .- A proposition is now pending before the Lower Council Board to provide a street lamp at the corner of Tenth street and Louisiana avenue. It strikes us that, for general purposes, an isolated light at that point, at the public expense, will not be proper. It will be well, however, to extend a range of those lights from the Avenue down Tenth street, over the Canal, and through the Smithsonian grounds to the Institute building If the Corporation will make the improvement down to the foot-bridge, it is almost certain that during the next session, Congress will continue it through the public property to the Institute building. It will be recollected that during the sessions of Congress that particular route to the building is thronged almost night ly with citizens and strangers, going to and returning from the Institute's lectures. So the line of public lamps, which we suggest, is greatly needed, indeed.

WASHINGTON COACH-MAKERS .-- We were much gratified to-day, with a beautiful piece of workmanship from the factory of Messrs. Haslup & Weeden, of our city. It is a coupee carriage, of a new style, invented by these skillful workmen for one of our physicians, who was badly hurt more than a year ago For convenience it cannot be equalled, and for elegance of construction it challenges com petition. If this vehicle could be seen in any of the the larger Northern cities, we feel sure that the ingenius builders would have many orders from invalids and the lame. Space forbids our saying more than that it combines the substantial comfort of the English builders, with the elegence of construction peculiar to the French. It turns in a shorter space than any other four wheeled carriage we ever saw, and without the slightest danger.

How to GET RID OF HOUSE ANTS .- Many house keepers are considerably annoyed by house ants, particularly our large hotel keepers. The following from an exchange is said to be an excellent remedy :

The best way to get rid of ants is to set a quantity of cracked walnuts or shell barks on plates and put them in the closet and places where the ants congregate. They are very myriads. When collected on them make a der, of Alexandria county, Va., in the general auto da'fe by turning nuts and ants together into the fire, and then replenish the plates with fresh nuts. After they have become so thinned off as to cease collecting on plates, powder some gum camphor, and put in the holes and crevices, whereupon the remainder of them will speedily vamose. It may help the process of getting them to as semble on the shell barks to remove all eatibles out of their way for the time.

LOOK ON THE SOUTH SIDE. - Will the omni bus drivers do the public the favor once in a while to turn their eyes towards the south side of the Avenue, from which, by some unaccountable mystery, it seems impossible to catch a glance from the Jervy of a Bus. A clever old gentleman to-day asks us to advocate the establishment of a new line of omni busses to run on the south side of Pennsyl vania Avenue, if but to save his lungs and at times somewhat shakey knees.

WARLIEE -Last evening a number of fe males engaged in a combat that excited the neighborhood of Third street and Maryland avenue. We learn that no very serious damage was suffered by the belligerents, their at West Point, with engravings. For sale by TAYLOR & MAURY, faces being a little marked and their hair disarrayed. A number of young men in the vicinity restored peace among the females, and were repaid by a wine drinking in the dwelling of the angry dames. Combats of this sort should be discountenanced in that neighborhood, as they degrade the character of the "plankroad."

for Monday, the 4th instant, should have been Wednesday, the 6th, for on that day they make their first parade, and have their ball on the same night, at Jackson Hall.

INCENDIARISM. - Appearances favor the opinion that the "committees" are at work egain. Several stables and other buildings have been fired during a few week past. Last night a stable belonging to Mr. Stott in First Ward, was destroyed by some incendiary. While the Auxilliary Guards were working on the stable, some villian, it was supposed, took fire from the stables and set fire to a row of houses near the National Observatory. This last attempt was a failure, and the loss by the Guards will find a necessity for active move-

> THE KUNKELS STILL ABOUT .- The Kunkel troupe requests us to say to ladies, and gentlemen, that to-night they give their ninth entertainment before the citizens of Washington.

NIGHTINGALE QUADRILL CLUB.—A new Club bearing the title at the head of this paragraph, has been formed by the young men in the exhalations which are at the foundation of northern part of the city. The following is most of the so-called epidemics with which the list of officers elected:—J. A Butler, Precities are so often afflicted. Where the water sident; C. H. Murphy, Vice President; I. Morrice, Secretary; C. Tretler, Treasurer.

LARGE NUMBER OF HANDS -There are now employed at the Navy Yard of this city twelve hundred hands-a larger number than were ever before employed at that place.

MARRIAGE LICENSES .- Sixty five marriage licenses have been granted since the first of the month. "Mercury," of the Sun, says the falling off in the number is probably owing to the tightness in the money market. Many, to all familiar with the unmistakable charac- no doubt, wish money would get off his spree.

It is the greatest of all Spring and Fall Medicines, and possesses an influence over the blood touly remarkable.

ANOTHER PREMIUM.-Mr. WHITEHURST has bee awarded another premium for his superior Daguerreotypes, exhibited at the World's Fair, New York. It will be remembered that Mr. W. received from the World's Fair, London two medals for his unrivalled daguerrectypes of President Filmore and Cabinet, and Pantiscopes of Niagara Falls, be sides premiums at all the fairs at which he has exhibited for many years past. This speaks volumes in favor of his gall

of it should be universally known-for it is strictly true—that indigestion is the parent of a large proportion of the fatal diseases. Dysentery, diarrhosa, cholera morbus liver complaint, and many other diseases enumerated in the city inspector's weekly catalogue of deaths, are generated by indigestion alone. Think of that, dyspepties; think of it al indigestion alone. Think of that, dyspepties; think of it all who suffer from disordered stomachs, and if you are willing to be guided by advice, founded upon experience, resort at once—don't delay a day—to Hoofiand's German Bitters, prepared by Dr. C.
